Super F League Announces Opening of a New League in Dallas, Texas

Overland Park, KS, September 10, 2008

Super F League, the fastest growing futsal organization in the country, has added a new league. The Super F League- Sportsplex Performance League, will begin operations in the Dallas area. CJ Goodman is directing the league and plans on a winter futsal league starting in November at Sportsplex.

CJ Goodman, director of soccer operations at Sportsplex, has a background of many years as a soccer player and coach. He is a life-long resident of the area and has been teaching soccer to area youths for many years. "I am excited to be able to bring the game I love to Dallas. I have been working with area youths for 15 years, helping to develop their outdoor skills through futsal training. The Super F organization has been great! The support they have provided will allow me to bring futsal to more kids in the area."

"CJ and his league are tremendous assets to the expanding network of our futsal leagues around the country," said Super F League co-founder and Executive Director, Jon Parry. "His background as a soccer player, connections with the local soccer market and entrepreneurial spirit make for a solid foundation to building a successful futsal league. His passion for the game of futsal makes him a great fit as he works with the soccer coaches and players of Dallas.

CJ is the kind of person who we love to have with running one of our leagues. He loves the game of futsal and will work hard to develop the sport in his area. In working with CJ, I know he will run a high-quality league and tournaments," says John Sciore, Super F league Director of Development.

About Super F League

Super F League is the largest US Soccer affiliated futsal league in the United States. Launched in 2004, Super F League offers amateur soccer players an opportunity to play organized futsal in local leagues. It does so by supporting entrepreneurial-minded soccer organizations with hands-on guidance in building their leagues. Super F currently has 14 leagues in cities all over the country.

What is Futsal?

Futsal is played indoors with a smaller/heavier size 3-4 ball. There are no walls in play. Also called "five-a-side", this is the game world class soccer players around the globe play to refine and maintain their ball control skills, footwork and touch.

There are four field players and a goalkeeper who protects a 6 ½ x 10 ft. goal. The game teaches tremendous ball control skills and presents incredible opportunities to get numerous touches on the ball.

Futsal, originated in 1930 in Montevideo Uruguay by Juan Carlos Ceriani, gained popularity rapidly throughout South America, particularly in Brazil.

While Brazil continues to be the futsal hub of the world, the game is now played in every country considered to be a soccer power throughout Europe, North and Central America, the Caribbean, Africa and Asia. Futsal is the newest rage in American soccer.
